

THE CLERESTORY

Hello from your President!

I am so happy to be able to introduce the 2017 Clerestory!

The team at Washington University in St. Louis created a remarkable conference that allowed us to connect, share, and learn. I would personally like to welcome all our new members as well as many returning friends; as we are much more than colleagues.

The annual conference was of course the highlight of AUID this year, but we also awarded 2 scholarships to very deserving interior design students.

They are the next generation of our profession and we hope that maybe some will go on to become members!

AUID membership continues to grow with over 150 members nationally. This year we also broadened the membership roster to include Alumni Members. These are once active members who have chosen to retire, but still want to remain active in our email chains and network with us. These alumni members bring a wealth of knowledge and historical information to the group. We can all continue to learn from their experience.

I am truly honored to be serving as President of such a remarkable group. Each year I leave the conference with a renewed sense of creativity and purpose. I sincerely hope that each of you can inspire each other with a new passion for all the challenges we face each day.

Best Wishes,
Melissa Marriott, President

2017 National Conference: Washington University

Last Fall, AUID held its annual conference at Washington University in St. Louis. The four day conference featured campus tours, vendor's, and educational workshops.

In the span of four days, there were an abundance of tours, each as interesting as the next. Highlights of the tour included Hillman Hall and Loop Lofts. With green design at its core, these two buildings were both awarded with LEED Platinum.

LEEDing THE WAY was one of the main focuses of the conference this year. Washington University did a great job of showcasing sustainability, as all new buildings on the east end have been designed to achieve LEED-Gold certification.

Thank you Washington for being welcoming and such amazing hosts! Next stop, University of Kansas!

INspire:

Engage our members through sharing information and resources; discuss issues and solutions to design challenges; and provide a network for management of interior design at higher educational institutions.

INform:

Increase and foster the education of our members and future interior designers.

INvest:

Support the empowerment of interior design professionals; enhance the health, safety, and welfare of the public at the institutions our members represent.

AUID's Scholarship Winners

Natalie Linton
Indiana University

Graduated from the Interior Design program at Indiana University, Natalie Linton received minors in Entrepreneurship and Apparel Merchandising. She is passionate about art and design and loves to create paintings and sculptures in her free time. Previously Natalie interned as an interior designer with Kimball Office as well as IU Residential Programs and Services Interior Design Office. If she is not designing or working, she is likely eating fettuccine alfredo or hanging out with her dog, Libby.

Mary Levensgood
Eastern Michigan University

Mary Levensgood graduated from Eastern Michigan University with a Bachelor of Science in Interior Design. During school, she was a part of honors college and received highest honors through her numerous volunteer hours, including work with Habitat for Humanity in Guangzhou, China, a senior thesis on the impact of sustainable design in learning environments, and additional academic achievements. Mary has moved to Colorado to continue her career in the commercial design field and has plans to pursue a master's in the near future.
