### PROJECT DESCRIPTION:

The client desired a space that could accommodate congregational services and reflection, allowing for flexible furniture arrangements. A border was created in the flooring perimeter to allow placement of chairs for quiet reflection. The color scheme aligns with the campus colors, featuring a mix of rich and bright blues complemented by warm wood tones and modern black finishes. Introducing an earth toned quartz with blends of gold, white, and beige for a neutral charm and durability. A mosaic artwork intertwined with blue tones and metallics offer a subtle glow that intensifies as the daylight fades into evening sits above the Credence Table which is for ceremonial purposes.

This project marked my first experience designing with custom liturgical furnishings and artwork for a 961 square foot chapel. The main challenge for this project was timing, the chapel was the last area completed in the construction phased plan. Additionally, there was pressure on the timeline due to last-minute changes in interior finishes and the need to collaborate with vendors on design of liturgical items and artwork but made it to the finish line in time for grand opening ceremonies. The total budget for furniture and finishes was approximately \$103,000.
