## STUDENT LIFE & ACADEMICS 5,000-20,000 SQ.FT.

PROJECT TITLE: Skutt Student Center

SQUARE FOOTAGE: SF15,000

PROJECT BUDGET: \$8.3 M

DID YOU WORK WITH AN OUTSIDE FIRM OR CONSULTANT? IF YES, Leo A Daly

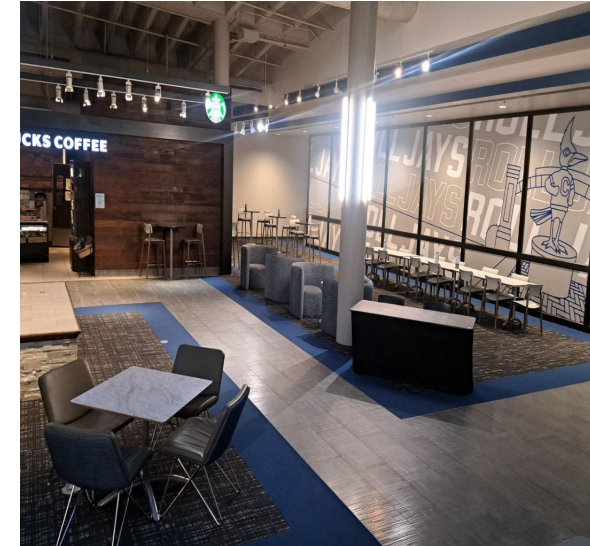

### PROJECT DESCRIPTION:

The Skutt Student center is a 15,000 SF, multi-use facility that contains food court and dining options, lounge areas, study space, small meeting areas, and a large ballroom/conference center. The building was built in 1980 and has gone through some changes over the years. However the building needed major infrastructure upgrades such as new sewer and water lines, HVAC was outdated and needed to be replaced. The restrooms were not ADA compliant. The kitchen and food court needed new equipment. This project took the opportunity to create a new and fresh look to all the areas.

All the existing flooring and ceilings were removed to allow for new sewer and water lines, and HVAC to be installed. The student areas and restrooms were re-imagined and designed to be ADA compliant as well as additional fixtures being added. The kitchen was re-designed to accommodate new kitchen equipment. New food vendors were awarded contracts to provide food options for students, which meant new lighting, flooring, branding, and signage were required. I designed the flooring so that there was a natural wayfinding and a queuing area that directed people to the various food vendors. The wayfinding design helped to direct people to the vendors as well as to allow for a safe corridor passage through the area. New lighting and branding colors were designed to create a new look to a tired space. A new porcelain tile corridor was installed as wayfinding connecting the ballroom to the new restrooms, and ultimately the new food court area.
